

ELEVATE YOUR SPICES QUALITY WITH ADVANCED COLOR SORTING TECHNOLOGY

Key Features :

- **Customized Background Color:** Smart LEDs which allows for customized background settings to enhance the visibility of impurities.
- **Remote Monitoring via Wi-Fi:** Effortless oversight and fault resolution.
- **Low Volume High-Frequency Ejectors:** Optimized for superior Spices sorting.

Cumin Seeds

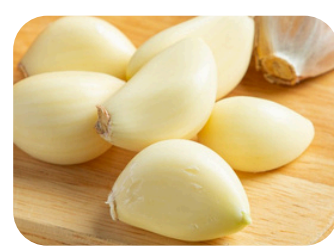

Fenugreek Seeds

Coriander Seeds

Chilli

Peeled Garlic

Cardamom

Black Pepper

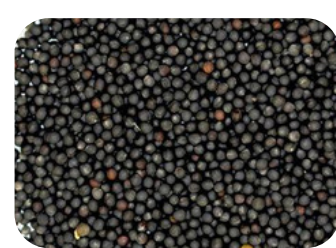

Sesame Seeds

Cloves

Poppy Seeds

Black Mustard

Flaxseeds

About Suzhou Dream Vision Co., Ltd

Suzhou Dream Vision Co., Ltd, with extensive industry experience, is a leading manufacturer of advanced optical sorting systems in China for various industries, including Spices. Driven by a vision to revolutionize sorting technology, we offer high-performance, cost-effective solutions. Our cutting-edge Spices sorters, equipped with Artificial Intelligence (AI) and remote connectivity, ensure user-friendly operation, precise sorting, and efficient remote monitoring and support.
